

## BluBag™ Accessories

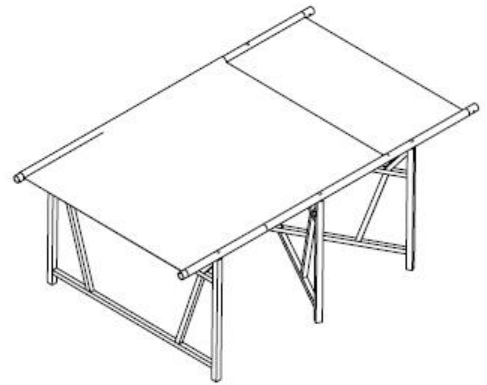

A full range of accessories is available and can be tailored to suit specific needs. Accessories include stands, pumps, tap stands, lifting nets and pallets.

### Stands

Stands allow BluBags™ to be placed securely above the ground. They are foldable and can be assembled quickly and easily. They take up very little space when not in use.

Stands are available for the following BluBag™ sizes:

- 1,000 litres
- 2,000 litres
- 3,000 litres
- 5,000 litres

### Pumps and Tap Stands

Attaching a pump or tap to a BluBag™ gives it extra functionality. We can provide you with a customised solution using a range of pumps, tap stands and connection hoses.

Please contact us if you have a specific configuration in mind.

12V pumps can be used in vehicles allowing for a mobile solution. Connected to taps, they can provide a basic and portable distribution system that can be used almost everywhere.

## Lifting Nets and Pallets

Larger BluBags™ are heavy and while they are stable and secure where they are placed, they may need to be moved from time to time, for example to be offloaded from a truck.

We can supply customised solutions for lifting including lifting nets and pallets. If you would like to know more, please contact our team.
